

CHS MATH LAB SCHEDULE 2016-2017

The CHS math department will be fortunate enough to continue our successful math lab program. The lab is open about twice a week from 2:00 – 3:00. The lab is intended for students to get additional guidance with assignments, work on weak mathematical skills, and provide other opportunities to improve math skills. Students are asked to look for assistance from their classroom teacher as a primary source, but we also want to provide other opportunities for students to get additional help if they need it. Below are the dates for the lab through the third quarter. For more information, please contact Bobbie Simoni via e-mail at simonir@riverview.wednet.edu.
